

## **Experiential Learning Psychological Science**

All undergraduate students graduating from Missouri S&T are required to have an Experiential Learning activity as part of their degree requirement.

Experiential Learning refers to learning by a variety of structured activities that differ significantly from the traditional lecture format.

The following activities may meet the Experiential Learning requirement for the Bachelor of Science and Bachelor of Art degrees. Additional activities not included below may also fulfill the requirement as agreed upon by the faculty member or academic advisor.

### **Courses**

- Special Problems and Readings (PSYCH 4000)
- Undergraduate Research (PSYCH 4099)
- Psychology of the Exceptional Child (PSYCH 4310)
- Health Psychology (PSYCH 4590)
- Industrial Psychology (PSYCH 4700)
- Internship (PSYCH 4990)

### **Additional Activities That May Qualify**

- Volunteer research assistant
- Presenting research at a professional conference
- OURE (Opportunities for Undergraduate Research Experience)
- Presenting research at the S&T Undergraduate Research Conference
- Honors Academy senior research project
- NSF Research Experience
- Co-op, internship, or externship not conducted as part of PSYCH 4990
- Study abroad
- S&T sponsored service learning (Puppies at the Puck, Miner Challenge)
- Practicum or formalized student teaching

The Experiential Learning requirement can also be met over the course of more than one semester by piecing together more than one Experiential Learning activity.

The student is responsible for documenting all Experiential Learning activities and the Department Chair and the student's Advisor will sign-off when a sufficient threshold has been met for the Experiential Learning requirement.

For additional information about the Psychological Science department's Experiential Learning requirements, contact your Advisor.
